

# Labels and areas conditions

## Adding, removing or editing labels

Labels allow you to display tasks information on your phasing books. Different models are available.

Label management can be accessed via the menu Options > Manage Labels.

### Changing the default color of labels

By default there is a predefined label for each new project. You can change its properties:

By selecting the label and clicking in its frame, you display its properties:

Labels	
Etiquette par default	Name (PM)
	Title:   Font   Sample   Associate a color to a cell   White   Champ de style :   Style par d

You can then:

- choose the option "Associate a color to a cell" (and use for example a grey #b3b3)
- choose the "Style field" option

This later option allows you to choose a list of styles from the custom fields (see below):

Font Sample Black	-		
Associate a color to a cell	White		
Champ de style :	Style par d 💌		
	Style par défaut		

#### Create a label

You can create new labels by clicking on the "Add" button at the bottom left of the side panel.

Give a name to your new label, then choose its type:

Model name:						
$\bigcirc$		•				
$\bigcirc$	Title 1	Ţ				
	Title 1	•				
$\bigcirc$	Title 2	•				
	Title 3	•				

Then click on "OK".

### **Editing labels**

To change the properties of a label, select it in the side panel and click in its frame to display the properties.

To change the name of a label, select it and click on the "Edit" button at the bottom:

Projet Linéaire 12 impasse Bernard Lyot 85 000 LA ROCHE-SUR-YON Tél. : +33(0) 2 22 44 52 52 support@projetlineaire.com

♦ Edit ×
Edit the label's name
Label name: My label

### Adding and modifying tasks styles

Tasks styles replace the area conditions of previous releases of Phase Manager . They use the new custom fields functionality.

To access custom fields, go to the menu *Options > Manage Custom Fields*.

### Editing a list of tasks styles

Click on the name of the style list, then click on the edit button :

## Champs personnalisés

Name		Туре		•	+ -	-	
Name		Ту	ре				
Style par défaut	t Choice list	[Chaussée et can	olication	e Torro vág	átala:Ci	Editer	
					1	-	
<b></b>				/			<
Ajouter	un type de choix					+	-
	Туре						
Aménag	ement	#ffccff •			-	Ŧ	î
Bordures	S	#669999 🔻			-	~	
Bordures	s et pavés	#333333 🔻	$\checkmark$	#ffffff	•	•	
Chaussé	e et canalisations	#b3ccff •			Ŧ	Ţ	
Couche	roulement récap jo	#666666 -			-	Ţ	
Couche	roulement récap n	#666666 -		#ffff4d	- <b>-</b>	•	

Here it is possible to define the colors that will be applied to the areas and tasks in the Gantt chart. The checkboxes allow you to define a background color and a grid pattern.

Note : to precisely choose a color, go to "Custom Color" then "Web" and set the hexadecimal value (here: #ffb366).
